EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christine Lekutis on June 8, 2006.

The application has been amended as follows:

Table 3 in the specification has been amended as shown on the attached sheet, to delete possible new matter.

The following is an examiner's statement of reasons for allowance:

On reconsideration, the requirement for deposit of strains listed in the claims is withdrawn. The strain Mv1LU-hf is described, enabled by deposit, and claimed in patent 6,610,474, which is incorporated by reference. Strains 293, Huh-7, and Mv1Lu are all well known strains available commercially from sources mentioned in Table 3 as filed. Strain 293T is also well known (e.g. 488,000 hits on Google), and is also available commercially, see as evidence the page from the ICLC on-Line catalog. Therefore, the biological materials listed in the claims appear to meet the requirements for public availability.

The remaining rejections are withdrawn in view of the amendments to the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
